Digimon Chronicle X

デジモンクロニクルエックス

Project Arc

Due to the growth and evolution of Digimon, and the increase in the number of individuals, the Digital World was **about to exceed its storage capacity** in the near future...

If the limit is exceeded, the Digital World will collapse. In order to avoid such a situation, "Yggdrasil" transferred only the Digimon that were selected to the "New Digital World" created on a separate partition.

The Digimon left behind in the old Digital World were **erased** by the "Royal Knights" and the "X Program"... or so it was supposed to be.

What is an X-Antibody Digimon?

Digimon who elude deletion by their order to escape from the threat of the "X-Program" , the "X-Antibody" was embedded in its Digicore, giving birth to an "X-Antibody Digimon" that underwent an "X-Evolution" that was different from normal evolution . It seems that more than 90 species of X-Antibody Digimon have been confirmed so far.

Digimon Chronicle X デジモンクロニクルエックス

What is X antibody

An antibody produced by a Digimon infected with the X program that deletes Digimon from their instinct to "want to live". Digimon with X-Antibody undergo X-Evolution and gain resistance to the X-Program. Also, Digimon that do not have X-antibodies can

Digimon Chronicle X デジモンクロニクルエックス

X-evolve by taking in the data of other X-evolved Digimon.

Since the X-Antibody will disappear if it doesn't continue to take in the X-Antibody, a fierce competition for existence was born where Digimon scrambled for the X-Antibody.

However, for Digimon that originally possessed the X-Antibody (Alphamon, Tobucatmon, Metalpyramon, etc.), the X-Antibody never disappears from within their bodies.

Changes in the X antibody

When a Digimon with the X-Antibody died at the end of its lifespan and was sent to the Dark Area, the replicated X-Antibody data was sometimes found as a residue on the spot. However, any duplicate data that was found quickly disappeared.

After that, over the years along with the Digimon, the X-Antibody was influenced by the strong survival instincts carved into its Digicore, cultivating the X-Antibody's self-preservation function .

Digimon Chronicle X デジモンクロニクルエックス

As a result, the X-Antibody did not disappear even if it was duplicated, and it was transformed so that there was no problem even if it did not take in the X-Antibody again.

The replicated X-Antibody can be given to other Digimon like blood serum to promote X-evolution, preventing and recovering from X-program infections.

Also, after the death of a Digimon that originally possessed the X-Antibody, it is known that by absorbing that data, it is possible to obtain an X-Antibody that does not disappear.

Chapter 1 "Ten years after that..."

After the activation of Project Ark, the old Digital World was contaminated by the **X Program** and turned into a world of death, and was strictly blocked.

However, after more than ten years, the concentration of the X-Program has weakened to a level where it does not immediately affect Digimon's bodies, and Yggdrasil orders the Royal Knights to investigate the current state of the former Digital World.

Craniummon and **Sleipmon** were given the X-Antibody by Yggdrasil, and headed to the old Digital World in perfect condition.

Chapter 2 "Desolation"

Craniummon X and Sleipmon X have returned from investigating the old Digital World. They reported to Yggdrasil in front of the Royal Knights about the current state of the old Digital World they had seen. It was that the old Digital World, which had lost its administrator, was in a state of chaos, and the Digimon who wanted hegemony over the old Digital World caused conflicts in various places, and were in a state of constant battle.

Craniummon X and Sleipmon X , who realized that they could not do anything on their own to restore

order in the turbulent old Digital World, proposed to
add another Royal Knight to the investigation team.

Hearing the series of stories, and in response to Craniummon X's proposal, Jesmon , who was nominated, willingly agreed, and Jesmon, who was entrusted with the X-Antibody, joined Craniummon X and Sleipmon X 's mission to re-enter the old Digital World. Jesmon X rushed into the old Digital World along with Craniummon X and others . There, just as Craniummon and the others had said, there was a horrifying sight of conflicts spreading out here and there. Unable to see the devastation, Jesmon comes up with a clever plan to settle this confusion.

Chapter 4 "New Order"

A clever idea to put an end to the chaos in the old Digital World is to set rules for this struggle for supremacy in the old Digital World .

The rule is that if you win one-on-one with the Digimon that govern each area, you can expand your own area. The area was expanded as they progressed, and the Digimon that won the final area was given the right to decide the future of this old Digital World . At first, Sleipmon X

discarded this idea, saying, "It's a dangerous idea," but then Jesmon said, "Let's participate by governing

Digimon Chronicle X デジモンクロニクルエックス

a part of the old Digital World so that the bad guys don't survive." proposed, and the warrior-like **Craneniummon X** greatly agreed. Thus, the rules proposed by **Jesmon X** were announced throughout the old Digital World.

Chapter 5 "Grand Rakmon"

Grand Rakumon , who plotted to cause all Digimon to undergo "Death-X-evolution", appeared in the old Digital World and caused the defeated Digimon to undergo "Death-X-evolution" in the Dark Area . was sent to

Digimon Chronicle X デジモンクロニクルエックス

By using Battle Royale, it advances in order to subjugate strong Digimon, but due to the Digimon * that survives at the end, it is sealed in the Dark Area as a countermeasure against Grand Rakumon, which has an immortal body.

Digimon Chronicle X デジモンクロニクルエックス

However, Grand Rakumon, the creator of the Dark Area, appeared in the old Digital World and moved around , affecting the boundary between the old Digital World and the Dark Area . Sensing this, some of the Seven Great Demon Lords saw this as a perfect opportunity and set out to achieve their own goals.

*A Digimon that you raised in Black & White.

Chapter 6 "Dark Area"

In the Digital World, there is an area of the underworld known as the "Dark Area" where Digimon who have reached the end of their lifespans and those who have been defeated and destroyed in battle are sent to.

Unlike the areas on the surface of the Digital World with File Islands and Folder Continents, Dark Areas exist on a separate layer. As a result, the "X Program" dispersed by the activation of Project Ark did not reach the Dark Area and did not have much of an impact.

Digimon Chronicle X デジモンクロニクルエックス

Within the Dark Area, the Digimon "Anubimon", who protects and oversees the area, judges whether the transferred Digimon is good or bad. Evil Digimon's data is sealed in the Dark Area, and only good Digimon's data is returned to Digitama.

However, among the evil Digimon confined in the Dark Area, there is a Digimon that is based in the Dark Area and possesses a mighty power that even Anubimon cannot handle . Among them, the Digimon called the Seven Great Demon Lords are based in the lowest layer of the Dark Area (Cocytus).

By the time the battle royal that decided the future, which began with Jesmon's declaration, had come to an end, the old Digital World regained its tranquility. However, that peaceful time did not last long. The moment the Digimon who won the Battle Royale were about to declare their victory, a large explosion

Digimon Chronicle X デジモンクロニクルエックス

Sensing something unusual, Jesmon headed to the center of the explosion, and what he saw was a horrific battle between the evil Digimon sealed in the **Dark Area** .

Chapter 7 "Open Gate of Darkness"

At the same time, Examon , who was waiting in the New Digital World, detected disturbing movements in the Dark Area. After receiving a rescue request from Anubimon, Examon rushes to the Dark Area on his own. At the entrance to the Dark Area when they arrived, a large number of sealed evil Digimon were trying to break through the gate. In order to maintain a balance between the old Digital World and the Dark Area, Examon began eliminating the evil Digimon who escaped from the Netherworld.

Digimon Chronicle X デジモンクロニクルエックス

The evil Digimon were emboldened by the chance to defeat the Royal Knights, but Examon, ignoring the numerical disadvantage, mowed down enemies one after another to show the difference in strength as the Royal Knights.

The evil Digimon had lost momentum in the face of their overwhelming strength, but they suddenly launched a suicide attack without fear of death.

Examon begins to be pushed by too much momentum. The mastermind who manipulates tens of thousands of evil Digimon herds,

Chapter 8 "The Spreading Threat"

Behind the birth of Lilithmon X, **Dark**

Knightmon and **Barbamon**, one of the **Seven Great**

Demon Lords, were in a skirmish. Due to its cruelty,

Dark Knightmon, which was sealed in the Dark Area,

has been fighting Barbamon for the throne of the

Seven Great Demon Lords and treasure.

Realizing that the **Old Digital World and the New**

Digital World were about to be connected, Barbamon

and Dark Knightmon rushed through the gates of the

Digimon Chronicle X デジモンクロニクルエックス

Dark Area to steal the treasure that sleeps in the New Digital World.

Then, the two bodies of fate undergo X-evolution due to **the X-antibodies they obtained from each other** .

There was no Digimon anywhere that could stop the two X-Antibody Digimon, and the surrounding

Digimon could only wait for the arrival of the Royal Knights while being frightened by the aftermath of the fierce battle.

As the Seven Great Demon Lords X-evolved one after another, the evil Digimon who had been smoldering in the Dark Area began to move all at once to break through the Dark Area. And Lucemon: Falldown Mode is looking down on that spectacle with a fearless smile .

For Lucemon, this chaos in the Dark Area was nothing more than a banquet that brought joy. Taking advantage of this chaos, Lucemon thought that he might be able to achieve his long-cherished wish of

Digimon Chronicle X デジモンクロニクルエックス

destroying the entire Digital World. In order to do that,

Lucemon felt that it was necessary

to expand this chaos and X-evolve all of the Seven

Great Demon Lords, so he himself X-evolved and

devised the next plan. It was the addition of

Beelzebumon X to the battle situation, and the

awakening of the Seven Great Demon Lords,

Belpheumon and Leviamon, who were still asleep .

The countless gates leading to the Dark Area that appeared in various parts of the old Digital World suddenly began to merge, transforming into a single gigantic gate .

Due to the gigantic doorway, the Digimon from the Dark Area, who had been holding back until now, formed a flock and broke through the gate.

The evil Digimon attacking in huge numbers seemed to announce the end of the world.

The Digimon who were fighting for peace in the Digital World despair at the nightmarish sight. "--Don't give

There, **Omegamon X** , **Alphamon** , and

They were **Kota** and **Yuji** , the humans who once

opened up the future of the X-Antibody .

At Kota and Yuji's orders, Omegamon X and the others speeded up and charged into the enemy's large army. Three Digimon that defeat many Digimon with their overwhelming power .

And many Digimon who were in despair will rise again to their hero.

It was the beginning of a full-scale war between light and darkness .

Chapter 22 "Power to the boys who come together"

—Time goes back a little.

Omegamon X, Alphamon, Ouryumon, and Dukemon X, who had long disappeared from history, stood on the ground of the New Digital World. Kota and Yuji are also nearby. After the battle with Dexmon,

they quietly explored all kinds of places, including the three worlds of the New Digital World (Urd Terminal, Belsandy Terminal, and Skuld Terminal), as well as places that are considered the core of the Digital

World, such as **Kernel** . I was traveling around. The purpose of that trip was to once again **watch over the Digimon with the X-Antibody so as not to discriminate against them** . The journey did not stop at one lap, but was repeated many laps and dozens of laps. During that time, the number of Digimon who felt their significance and opened up to each other swelled.

While continuing their journey, Kota and the others hear information that **the blockade on the old Digital World will be lifted**. So they set out to restore the old Digital World in a better form. **Following Craniummon and Sleipmon** , when it was decided that **Jesmon** , who has excellent communication skills

At this rate, it seemed that everything would go well toward the lifting of the blockade of the old Digital World .

However, at that time, Omegamon X senses a disturbing sensation from the Dark Area , even while

they are in the New Digital World . Dukemon X

speculated that the

evil spirits wafting in the air might be related to the

Seven Great Demon Lords. At this rate, not only the

old Digital World, but the entire Digital World may be

in danger. Kota and the others rushed to collect the

Digimon from the New Digital World they met during

their travels .

Many Digimon gather at Kota's call and surround them.

"I'm sorry for calling you all

out of the blue," Kouta said, telling him that the old Digital World was not alone in danger.

The faces of the Digimon who listened to Kota's story had smiles on their faces, as if they had already understood what Kota was going to say next.

"Let's go help. The New Digital World and the Old Digital World must not lose any more lives! Let's **all cut open our future!** "

The Digimon who surrounded them let out a roar all at once. Among them were **Justimon X** , **Shisamon X** , and Hououmon X. **The Three Archangels**

, who were watching the situation from Kernel , also agreed with Kota's words and entrusted **Kernel** 's protection to **Seraphimon** . They formed a large army and headed for the old Digital World all at once.

I won't let you do as you please, Demon! " .

Magnamon X cooperates with **Dynasmon X** to defeat **Beelzebumon X**, and the other Royal Knights cooperate with surrounding Digimon one after another to **neutralize** the Seven Great Demon Lords of Lilithmon X, Belpheumon X, and Leviamon X. It was successful.

However, the moment each of the Seven Great Demon Lords was neutralized, their bodies were

sucked into the gate of the Dark Area as if they were transported somewhere else .

All the Royal Knights, who were facing the Seven Great Demon Lords, had no choice but to stand still with a premonition that something bad would happen.

Chapter 24 "The 7 Diablomon X"

The body of the Seven Great Demon Lords that had been incapacitated was transferred to **Cocytus, the lowest layer of the Dark Area** where Lucemon X resides .

"Hahahahaha! The time has come!!" In response to Lucemon X's voice, **Keramon** X evolved into Diablomon **X**. Diablomon X, which was copied and split into seven bodies, absorbed **the power of the seven great demon lords one after another**. "It was

Digimon Chronicle X デジモンクロニクルエックス

the right decision to send the sample to that Battle Royale to collect the data of Diablomon X. Isn't it wonderfully enduring and absorbing the huge data of the Seven Great Demon Lords! The body too... fufu, fuhahahahahahaha!" Lucemon X voluntarily absorbed himself into the 7th Diablomon X with a loud laugh. .

All of the Seven Great Demon Lords are completely absorbed, and **Diablomon X, split into seven bodies, begins to rise to the surface.** He appeared in front of the Royal Knights who had gathered together.

Chapter 25 "Death"

Each of the seven Diablomon X overflowed with a tremendous amount of energy, and everyone at the Royal Knights felt that if left unattended, bad things would surely happen. However, after fighting the Seven Great Demon Lords, Sleipmon X and the others are exhausted, and Gankoomon X , who is still recovering, and Jesmon X , who is watching over them, cannot move.

Alphamon performs Blast Evolution with Ouryumon, becomes Alphamon King Dragon Sword , and begins

attacking Diablomon X with three Royal Knights along with Omegamon X and Dukemon X.

He challenges Diablomon X, who has the combined power of each of the Seven Great Demon Lords, but his movements are inconsistent and his unpredictable battle style doesn't work with Omegamon X's "Omega Inforce", so he is forced into a tough fight.

Gankoomon X and Jesmon X, who have fully recovered, return.

"I've caused you trouble. Let's take it back from here!"

Digimon Chronicle X デジモンクロニクルエックス

With Gankoomon X's extraordinary power and Jesmon X's cooperation, he pushes the front line up at once against multiple Diablomon X opponents.

Seeing the situation as boring, one Diabolomon X who was watching the battle at the back shouted, and as if resonating with that, the seven Diabolomon X fused together again, transforming into a gigantic Digimon. achieved.

The name of that Digimon is... **Ogudomon X.**

The ultimate darkness **reigned over the old Digital World.**

Chapter 26 "New X-Evolution/Final Battle"

When the gigantic Ogudomon X appeared, the world began to gradually collapse. The earth splits apart, the texture covering the sky peels away, and the whole world is enveloped in wireframe darkness .

Because Ogudomon X possesses too much power, it is a dangerous existence that destroys the world simply by existing there. This was Lucemon X's aim, and by becoming Ogudomon X himself, he was trying to destroy everything in the Digital World.

Digimon Chronicle X デジモンクロニクルエックス

At this rate, the old Digital World will be completely wiped out, and the new Digital World will also be destroyed. In order to overcome the crisis of the entire Digital World, all Digimon launch an all-out attack on Ogudomon X. There, the evil Digimon also participated in the all-out attack out of fear that they would have nowhere to stay, and regardless of whether they were enemies or allies, they united to defeat Ogudomon X. However, the strength of each individual Digimon was insufficient to defeat Ogudomon X. The desperate attacks by the Royal Knights, who summoned their strength to stand up, did not work against Ogudomon X, and Omegamon

X, Dukemon X, and Alphamon Ohryuken were also defeated. "It's a little tough for me alone..."

Gankoomon X muttered to himself as he attacked Ogudomon X. Although he still had his spare strength, he realized that he could not overcome this situation with his own strength. Then, Gankoomon X rushes over to Jesmon X." GRAAAAAAH!" Having inherited Gankoomon's power, Jesmon X transcends X-Evolution, and awakens to a new form:

And when Gankoomon X touches Jesmon X, the data that has turned into light rapidly flows into Jesmon.

Final Chapter

The power of **Jesmon GX** has grown stronger, and at one point surpassed the power of **Ogudomon X**.

Digimon Chronicle **X** デジモンクロニクルエックス

However, Ogudomon X's bottomless power of darkness began to overwhelm Jesmon GX again, and Jesmon GX turned into a one-sided defensive battle.

What should I do ... !!

At that time when Jesmon GX was in a struggle, the fallen **Royal Knights** stood up again.

" **We'll gather our strength into Jesmon!** "

All the Royal Knights raise their hands towards Jesmon GX. Each of them wields their remaining power and sends it to Jesmon GX to be collected.

" **I feel everyone's power. With this, I can go!!** "

Digimon Chronicle X デジモンクロニクルエックス

Go, Jesmon. Jesmon GX, who bundles the power of the Royal Knights , unleashes " **Knights Intruder**

"This is the end!"

And that attack splendidly cut Ogudomon X in two.

Ogudomon X ceased its activities and began to disappear.

It was a moment when peace returned to the world.

The Seven Great Demon Lords, freed from the disappearing Ogudomon X, exhausted their remaining power and returned to Cocytus.

Urging attention to Yggdrasil together with the Royal Knights, the Kotas once again said goodbye to the Royal Knights and Ouryumon and left.

It is said that Alphamon, who saw Kota and the others, disappeared again.

Thanks to the work of Kota and Yuji, Yggdrasil once again recognizes the usefulness of the X-Antibody.

X-evolution was recognized by Yggdrasil as one of the [**hidden evolutionary possibilities of Digimon**].

This decision quickly spread throughout the Digital World.
